

CONSTRUCTION UPDATE – 17 FEBRUARY 2021

This update is regarding the installation of a series of Precinct Entry Markers, to enhance entry points and talk to the nature and history of the redeveloped site, with each location adopting it's own bespoke design. We have 2 active locations (location 2 and 3 – circled in green in the map below).

This work will be completed in 2 Stages. Stage 1 will involve concrete pouring for footings and Stage 2 will be the installation of the physical Precinct Markers.

The program of works is listed below – note this timing is subject to change.

Location 3 - Stage 1 commencing 23rd February – approx. 2nd March

Location 3 - Stage 2 commencing 8 March – approx. 12th March

Location 2 – Stage 1 commencing 4th March – approx. 12th March

Location 2 – Stage 2 commencing 15th March – approx. 26th March

What to expect:

Location 3 - Stage 1 will involve the use of temporary fencing and water filled barriers to isolate the work area. Access will be maintained at all times for both vehicles and pedestrians. Vegetation currently in the median will be removed by our precinct landscape team, Jiwah to create room for these footings.

Work duration:

Location 3 - Stage 1 works are scheduled to commence Tuesday 23rd February though to approx. 2nd March. Further updates will be issued with vehicle movements over the coming weeks as we progress through each stage of works.
